

Wi-Fi Phones

VoiceDirector customers can use the Samsung SMT-W6100 and WIP-6000M Wi-Fi phones along with the BCM WLAN660 to place low-cost calls all over the world

VoiceDirector Wi-Fi Solution

The Samsung SMT-W6100, Samsung WIP-6000M and BCM WLAN660 are perfect complements to the VoiceDirector corporate calling solution, enabling employees to make low-cost calls over a Wi-Fi network.

These Wi-Fi phones allow companies to extend VoiceDirector savings to employees who travel or are working from remote locations.
